

MARINA VILLAGE BREEZE

April 18, 2019

Happy Spring!

Let's take you on a visual tour of Marina Village today so you can see the news for yourself!

These first 3 pictures are of the beautiful plant additions to the roof deck and entrance to the office and entrance to the elevator.

And below is our wonderful Assistant Manager, Lisa, whose energy driven green thumb made all of this happen.

Thanks, Lisa

Our new Elevator is up and running, and owner feedback is 5-Star. It's quiet, fast, talks to you and eliminates the long waits for our original elevator when it was the only one we had.

Our maintenance guys, Matt and Rich, did an awesome job preparing and refinishing our rooftop Hot Tub with Gelcoat.

Joe, Larry, and Travis...three skilled carpenters from Maine... replaced the floor in the Health Club exercise room and adjoining bathrooms with a beautiful wood-like flooring in a whirlwind two day jaunt. It's guaranteed for 25 years!

Also the bathroom vanities were replaced with the new ones you see in the picture. Everything looks great!

The roof trusses have been placed on the new restaurant dining room enclosure on the dock. It's about half the size of the previous Snug Harbor Restaurant and only one story tall.

After 15 years of weekly use in the salt water, our beloved boat was required by the Coast Guard to be rebuilt with new deck supports, cross member beams, decking, etc. It should be finished and back in business within a month.

These two pictures show the new aluminum supports and cross beams that are being welded onto the frame.

We hope you enjoyed this all-visual format. On

**behalf of the Board of Directors, and our
Outstanding Staff, thank you for your support!**

Best regards,
Paul Rosen, Director
